C&G SYSTEMS INC.

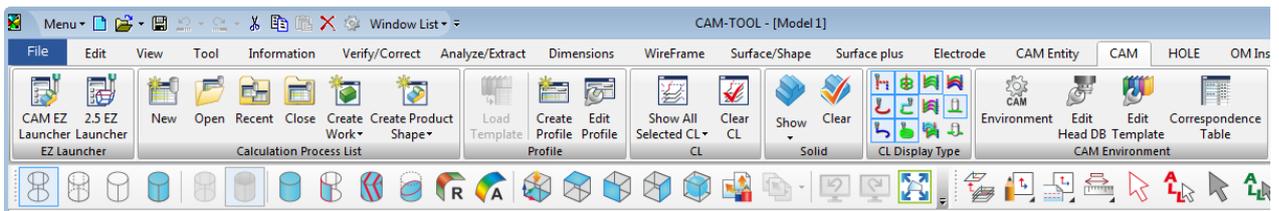

Improve Operability by Redesigned User Interface

~ Released in April with 39 functional enhancements ~

In April, our company (President: Seiichi Shiota) will release “V14.1”, the new version (Hereafter “this version”) of CAM-TOOL which is the CAD/CAM system corresponded to 5-axis machining center for molds & dies.

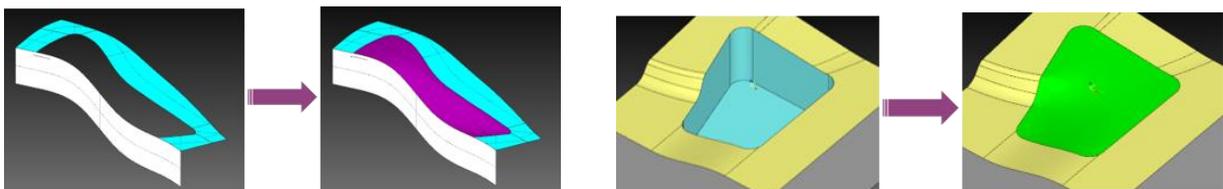

“Ribbon Menu” like in Microsoft® Office products, has been newly adopted in this version, advancing the operational affinity for other Windows applications with new command menus. This improves the system operability with the grouping of relevant commands, contributing to ease of use for the system operators.

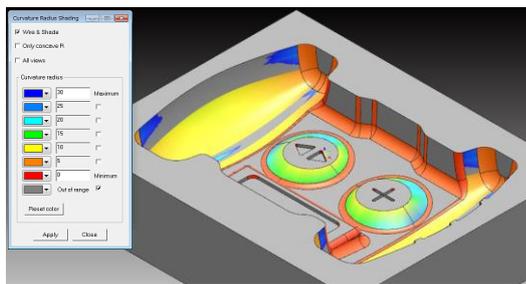

“Ribbon Menu”

Also, “Fill Surface” command has been added to Surface Plus, making it possible to easily create surfaces which are superior in continuity with adjacent entities, for closed areas surrounded by arcs, curves, surface-contours or so on.

“Fill Surface” Examples

Moreover, 39 functions have been enhanced, including improvement of shading ("Curvature Radius/Angle Shading" in gradation of 7 colors: Picture on the left), functional enhancement of "Surface Plus", strengthening and improvement of toolpaths for machining, extension of usable cutting-tool shapes, and expansion of "Simulations"/"Tooling DB"/"Translators".

[Product Prices] (All prices below are in Japanese Yen.)

- CAM-TOOL 3-axis package : ¥ 5,200,000 -
- CAM-TOOL 5-axis package : ¥ 6,400,000 -
- Surface Plus : ¥ 500,000- *Optional module of Modeler

[Annual Sales Target]

250 licenses * Including all option modules.

[Company Information]

- Foundation : July 2, 2007 (*1)
- Capital : ¥500,000,000-
- Description of Business : Development/Sales/Support of CAD/CAM System for Mold & Die, and Production Management Systems

(*1) Our company is a CAD/CAM solution developer founded in 2010 as the result of a business integration and merger with Computer Engineering (founded in 1978) and Graphic Products (founded in 1981). Both of the 2 companies had more than a 30-year history, and we now have about 6,000 domestic customers and about 1,000 overseas customers.
