

Important Notice about Supporting Microsoft Windows 8 / Windows XP

Aug. 2013
C&G SYSTEMS INC.

Dear valued and prospective customers using CGS products,

Please be kindly informed our corresponding status to [Windows 8], the latest Microsoft's operating system, and [Support is ending for Windows XP] that Microsoft Corporation has been announcing. As we have notified that our products are going to support Windows 8, the support version (including the final support version for Window XP) has been determined eventually.

■ Supporting Edition of Windows 8

Our products will support **Windows 8 Pro** only.

Edition of Windows 8	Guarantee to Perform	
	32bit	64bit
Windows 8	✗	✗
Windows 8 Pro	△ (*1)	○
Windows 8 Enterprise	✗	✗
Windows RT	✗	✗

■ Release date of the support version for Windows 8 Pro (and the final support version for Windows XP)

The support version and release date are shown as below.

Products	Windows 8 Pro				Windows XP	
	Support Version	32bit	64bit	Release Date	Final Support Version (*2)	Release Date

* SW means SolidWorks.

(* 1) **The following products will not support Windows 8 32bit OS.**

- CAM-TOOL
- CG Series (Corresponding to SolidWorks; <http://www.solidworks.com/sw/support/SystemRequirements.html>)

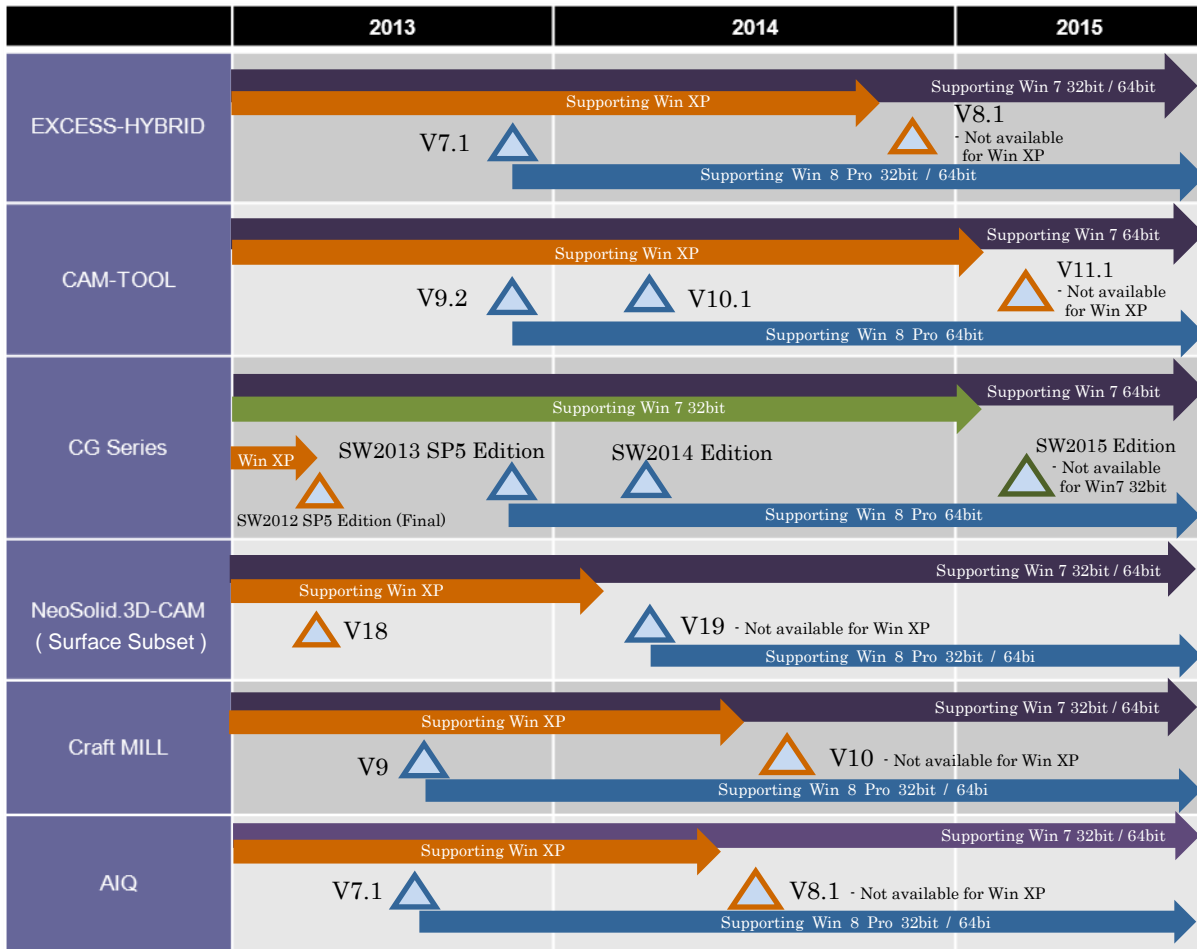

(* 2) **About our technical supports for the final support version for Windows XP**

After the final support version is released, we will support the products until the next version will be released. After Microsoft Corporation finishes their support for Windows XP (4/Apr./2014), we will not deal with the system inquiries concerning OS.

(Footnote) **About supporting for Windows 7 / Vista**

- The next version of CG Series (SW2014 Edition) will be the final support version for Windows 7 32bit OS. (Corresponding to SolidWorks)
- The present version of CG Series (SW2013 Edition) is the final support version for Windows Vista. (Corresponding to SolidWorks)
- CAM-TOOL and CG CAM-TOOL don't support Windows 7 / Vista 32bit OS.

《 Support & Release Schedule for Windows OS 》

※Win means Windows SW means SolidWorks.
